

## LFFA Working Groups

The WGs support various functions and activities of the Executive Committee (EC), LFFA Delegation (LD) and Operations (annual and strategic plans) of the organization. Participation on the WGs was solicited through broad communications to the EC and LD and individuals who expressed interest were appointed.

The WGs are guided by a terms of reference and annual work plans endorsed by the EC and LD. To maximize efficiency the EC have concluded that the Technical and Agreement working groups will be divided into sub-working groups and the EC meetings will be used as the reporting and processing venue. The sub-working groups will be tasked with reporting back to the WGs, EC and LD.

LFFA staff will provide administrative and coordination support as required and the WG expenses will be covered as per budget and funding permits.
